College Audition Season is Fast Approaching!

Students interested in auditioning for a degree program in music: this is your summer to *plan*, *prepare* and *peruse* different schools for auditions in the late fall/early spring. Set up some summer sessions to review school selections, build your audition book, secure headshots and lock in possible repertoire. Skills such as sight reading and music theory are required at many institutions, and now is a great time to hone in and practice those skills as well. Contact me to set up your summer sessions and create a path forward as you take this next step in your musical career.
